

# YOUR NEXT STEPS AT YYRC ...

## Congrats on completing the LTR program! What's next?

Hopefully you've really enjoyed the Learn to Row program, and are considering your next steps with your new chosen sport!

There are a couple of options for you, both of which will enable you to continue rowing, and continue being coached as part of Yarra Yarra's Development Squad, which has designated coaching times each week.

## Full active membership

Your LTR registration can be upgraded to a Full Active Membership if you wish to continue rowing after the course. Active Membership entitles you to use the boats and on-water equipment (with the Captain's permission).

You'll also have full access to the club's premises, the gym and ergos, the change room, showers and lockers, the bar, as well as access to club coaching in the Development Squad, at designated times. When your skills are of a sufficient standard, you can also start competing in regattas! A full active member has voting rights at the Club's AGM (with a waiting period of 1 year before you are eligible to vote).

The cost of a Full Active Membership is **\$615 per year**.

## Bridging option

If you are still unsure about committing to an annual membership, we do have a Bridging payment option which allows you to row as a full active member for 4 months. You will have all the same benefits as an active member during this period. Plus we'll allocate you a 'buddy' - a member of the club who you can contact to ask any questions, and who can provide you some help and guidance whilst you find your way in your new chosen sport.

This is only available to people who have come through our Learn to Row program, and only as a 'once-off' (you cannot repeat the 4 month payment option). The cost of the **4 month Bridging option is \$210**.

At the end of this period, if you do decide to continue your membership, your 4 month bridging payment option will count towards your voting rights eligibility, i.e. you will become eligible to vote at Club AGMs after another 8 months of full active membership (4+8=12).
